EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 3, 4, 9, 11-14, 21, and 23-26 are cancelled as being drawn to non-elected species.

Claims 17 and 18 are cancelled because it fails to further limit claim 15 being that claim 15 notes that the cavity's opening is in the lower surface and the at least one depression is formed in the lower surface.

Allowable Subject Matter

Claims 1, 2, 5, 6, 8, 10, 15, 16, 20, 22, 27, 28, and 31 are allowed.

The following is an examiner's statement of reasons for allowance:

The applicant argues that the depression serve the purpose of shifting the center of gravity of the club head upward. Due to the amendment submitted 8/22/06, the primary reason for allowance is due to the depressions extending to the second surface (back) of the primary element and the insert having protrusion received by the cavity and depressions in which the insert is of a density less than that of the primary element.

Art Unit: 3711

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
